### Use Case #3: Check Leaderboard

Actor(s): Player and Admin

Purpose: allows any user to view the previous players scores

#### Preconditions:

1. At least one game been played before
2. Actor has opened the application

#### Course of Action:

1. Actor presses the check leaderboard button on the main menu
2. Leaderboard receives info from the database
3. The actor can then sort by top score, by category, by difficulty, and by player name.
4. Info gets sort and redisplayed
5. Actor can close the leaderboard after viewing via the return button

#### Post conditions:

1. Scores received by the leaderboard
2. App returns to the main menu
